

1

# User Response Capability

Achieving Quick Responses to Customer Needs Through Strengthening Customization Capabilities.

**Production**

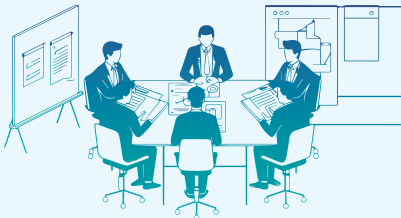

**Customer**

**Sales**

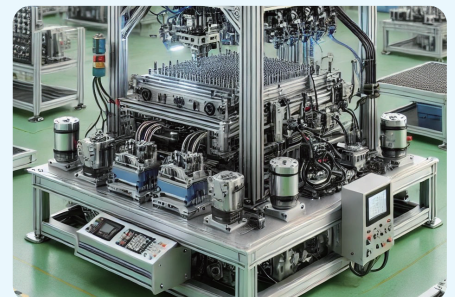

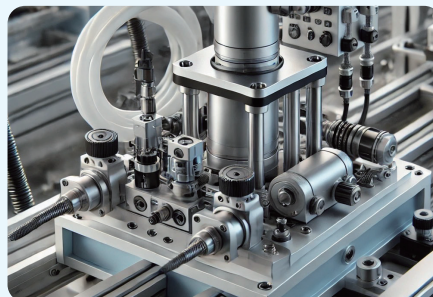

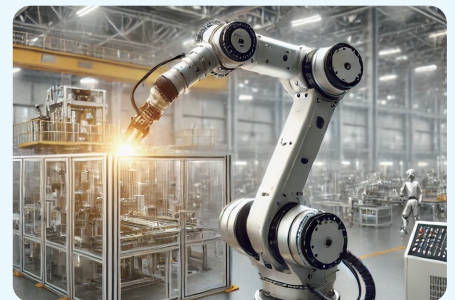

**Development**

2

# Solution Capability

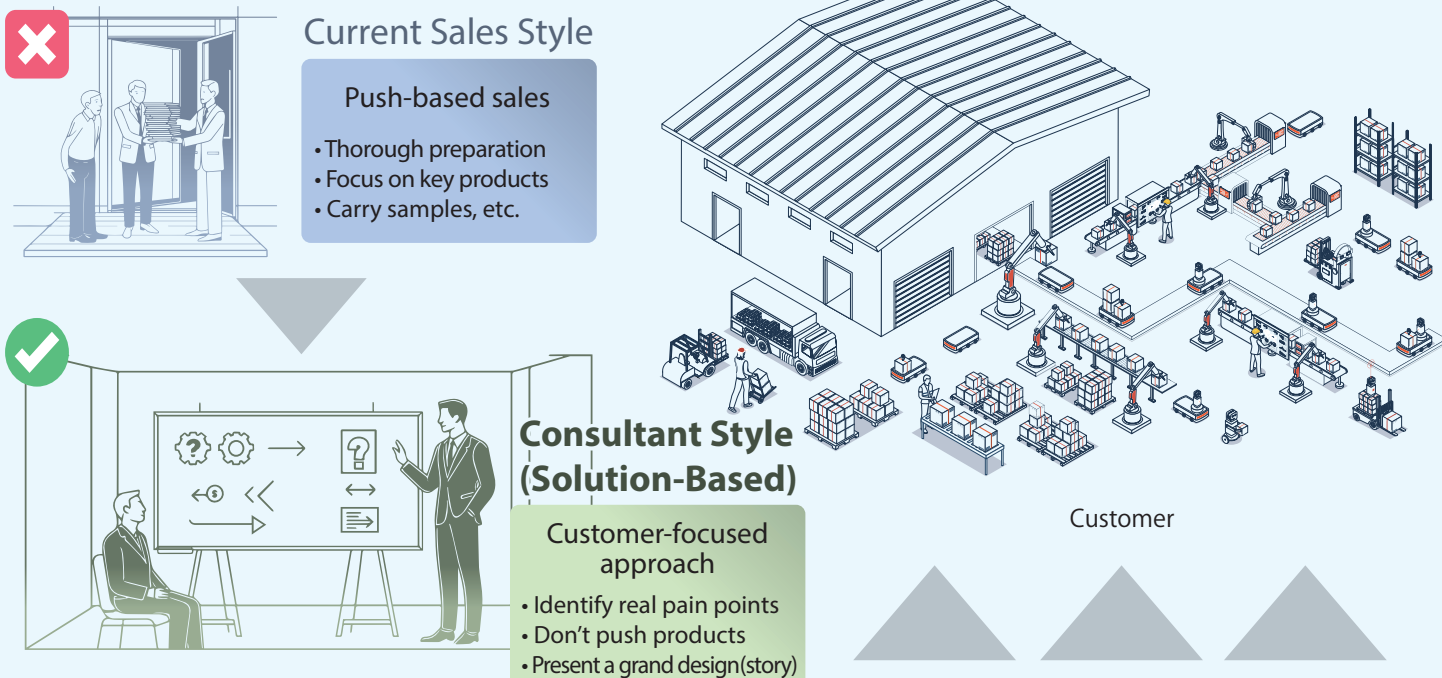

Strengthening In-House Capabilities for Unit and Equipment Solutions  
 “Semi-automation from manual labor” is the emerging trend in equipment needs.  
 Ultimately, we aim to meet all automation demands.

3

## Consulting Capability

Providing Precise Proposals Aligned with User Needs  
Foundational Strength to Support “Consultative Sales”

4

## Synergy Network

Creating Synergies Through Stronger Alliances Covering  
automation needs that cannot be met by Koganei products alone
